Glenbrook/Springdale Transit-Oriented Development Feasibility Study by Goody Clancy

The Planning Board has invited the City's consultants, Goody Clancy, to make a presentation to the Planning Board, Zoning Board, Finance Board and Board of Representatives. The goal of the Glenbrook/Springdale Transit-Oriented Development study is to anticipate and manage future physical changes in these communities for the benefit of all. Issues of market demand, land use, parking and transportation were examined as part of the effort to promote active, walkable and inviting districts for residents and visitors alike. The project includes an analysis of potential locations and feasibility of development at the stations themselves and in the surrounding "Village Commercial Districts" or VCDs.
